Revision 8 length-response slopes | generated 2026-10-01T16:16:56.494964+00:00
Raw OLS slopes; separate color scale per metric. Gray: ≤3 valid points / unavailable fit. Native model units differ.
Competition
Gradient reversal
Finite countercue
Amplitude P=100
Amplitude P=400
Phase P=100
Phase P=400
Settle: competition
Settle: left gradient
Settle: countercue cue
Settle: finite no cue
Settle: spring spontaneous
