Three sizes · all four stationary-cue angles

Open/dashed: cue withdrawal · filled/solid: after 13,000 cue-free units · actual P-relative angles with a shared range in each column

Bottom +/×: weak-R withdrawal/final, no heading · □: final full-field tail failure · Five tested durations per curve; connecting segments guide the eye.

Analyzed histories 240/240 · generated 2026-10-19T16:41:10.791970+00:00 · complete grid · native clocks differ across models
