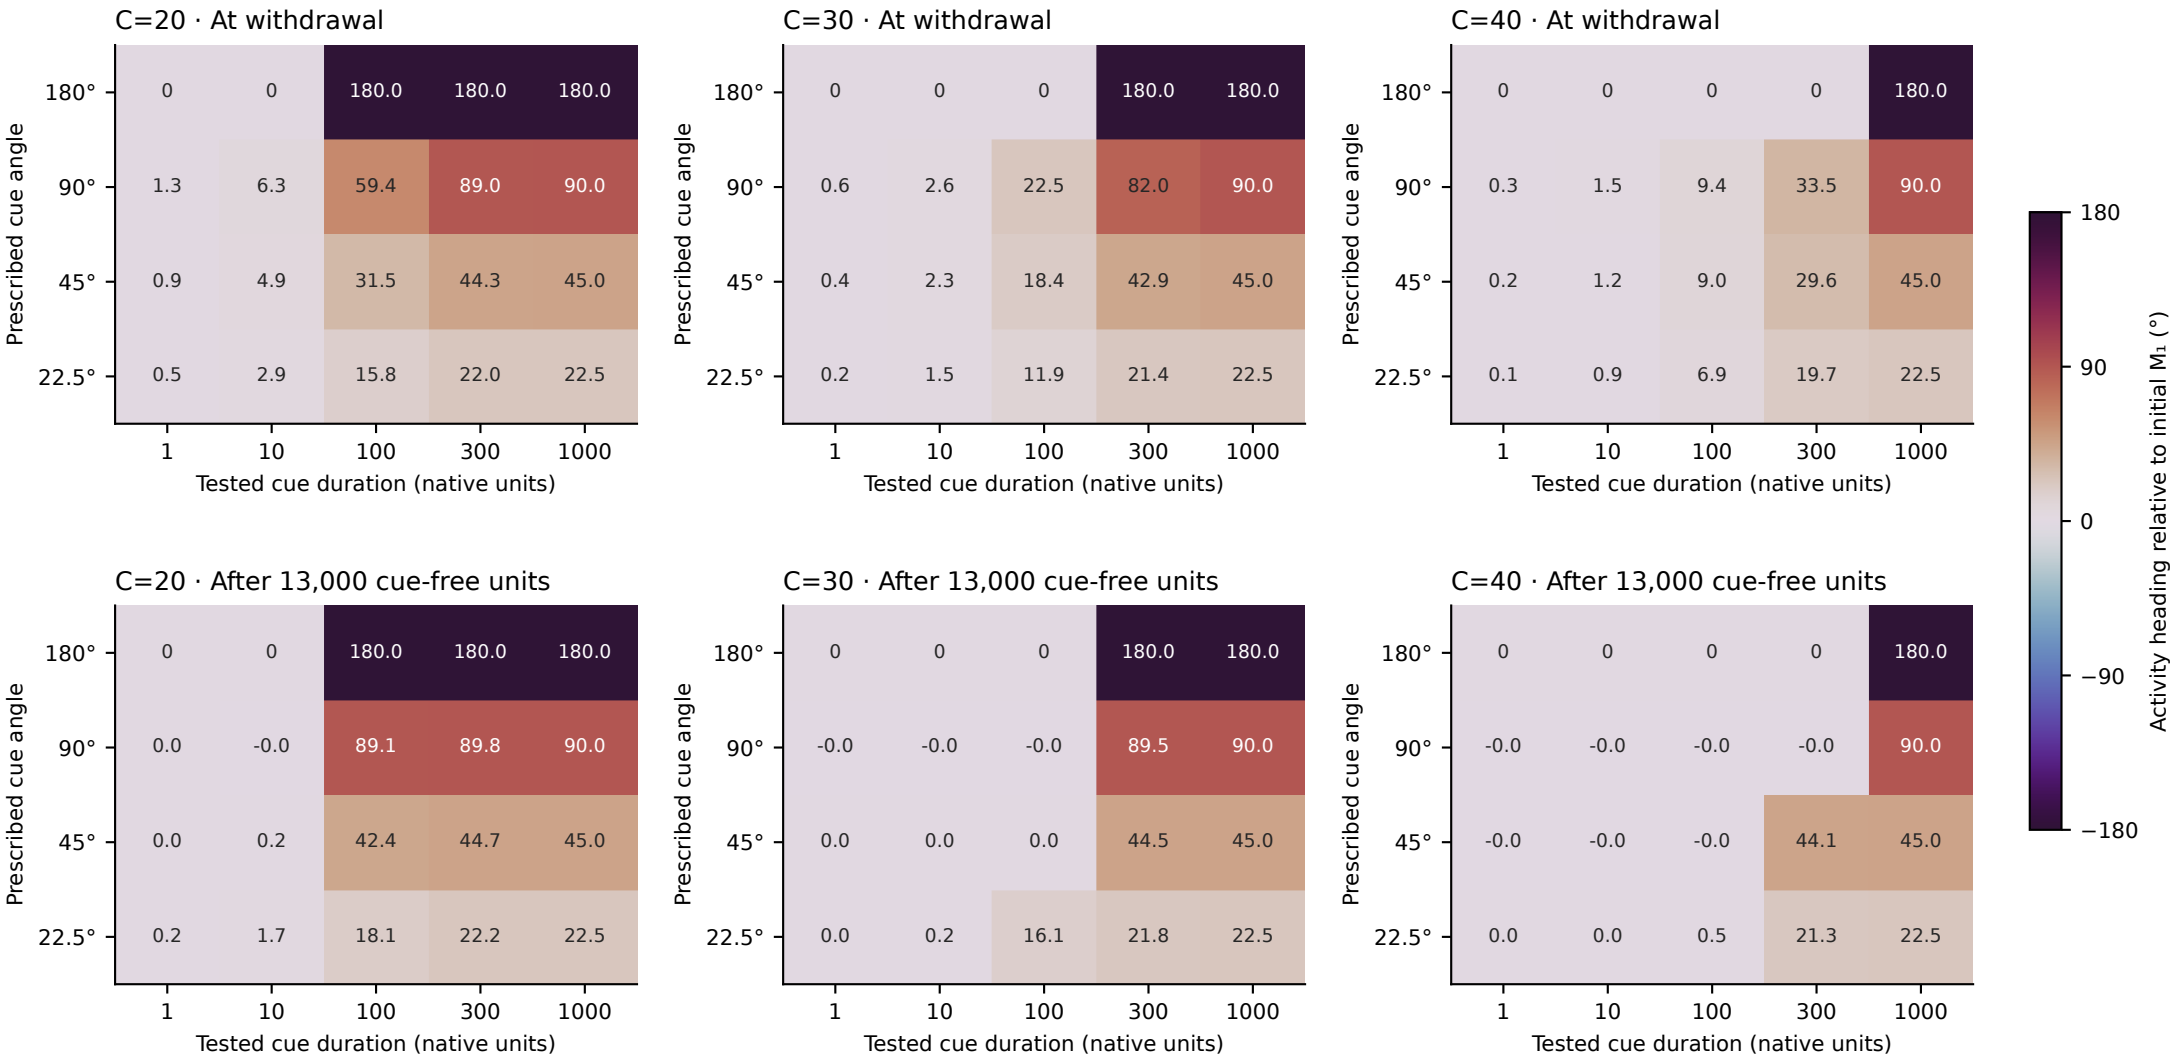
Goryachev · all four stationary-cue angles across three sizes

Measured activity heading in P=M₁/M₁(0) coordinates. Grey R<.1 cells retain a valid weak vector but no interpreted heading.

Durations are tested categories; cell spacing does not imply equal native time. Black outline: separate final full-field tail gate failed.



Analyzed histories 240/240 · generated 2026-10-19T16:41:10.791970+00:00 · complete grid · native clocks differ across models
