S11 · Native activity atlas appendices

All 578 native atlas pages are retained in 13 numbered PDF volumes. This core PDF indexes those appendices. Full plotted native fields remain in verified HPC wideCSV.gz archives; portable per-page inventories give exact paths, hashes, native grids and row counts. Statistical CSVs and selection/snapshot metadata are portable. Native profiles retain their saved grids and colour scales; no interpolation or quantization is introduced.

Volume	PDF filename	Native pages	MiB
1	figure4_S11_native_atlas_appendix_001.pdf	50	17.00
2	figure4_S11_native_atlas_appendix_002.pdf	50	16.74
3	figure4_S11_native_atlas_appendix_003.pdf	50	19.05
4	figure4_S11_native_atlas_appendix_004.pdf	50	20.43
5	figure4_S11_native_atlas_appendix_005.pdf	50	18.10
6	figure4_S11_native_atlas_appendix_006.pdf	50	19.45
7	figure4_S11_native_atlas_appendix_007.pdf	50	20.23
8	figure4_S11_native_atlas_appendix_008.pdf	40	17.11
9	figure4_S11_native_atlas_appendix_009.pdf	50	31.24
10	figure4_S11_native_atlas_appendix_010.pdf	22	15.51
11	figure4_S11_native_atlas_appendix_011.pdf	50	14.88
12	figure4_S11_native_atlas_appendix_012.pdf	50	15.26
13	figure4_S11_native_atlas_appendix_013.pdf	16	5.40

Complete per-page registry: figure4_S11_complete_appendix_page_registry.csv
Every appendix and native-field CSV is hash-verified. The reader links compact archive inventories; full-field files are available on HPC.
